

Packet Tracer - Basic Switch and End Device Configuration

Addressing Table

Device	Interface	IP Address	Subnet Mask
Room-145	VLAN 1	128.107.20.10	255.255.255.0
Room-146	VLAN 1	128.107.20.15	255.255.255.0
Manager	NIC	128.107.20.25	255.255.255.0
Reception	NIC	128.107.20.30	255.255.255.0

Objectives

- Configure hostnames and IP addresses on two Cisco Internetwork Operating System (IOS) switches using the command-line interface (CLI).
- Use Cisco IOS commands to specify or limit access to the device configurations.
- Use IOS commands to save the running configuration.
- Configure two host devices with IP addresses.
- Verify connectivity between the two PC end devices.

Scenario

As a recently hired LAN technician, your network manager has asked you to demonstrate your ability to configure a small LAN. Your tasks include configuring initial settings on two switches using the Cisco IOS and configuring IP address parameters on host devices to provide end-to-end connectivity. You are to use two switches and two hosts/PCs on a cabled and powered network.

(config)# hostname Room-14

Instructions

Configure the devices to fulfill the requirements below.

(config-line)# password xAw6k
login

Requirements

(config-line)# enable secret 6EBUp

- Use a console connection to access each switch. (config)# service password-encryption
- Name **Room-14** and **Room-146** switches. (config)# banner motd "text"
- Use the **xAw6k** password for all lines. (config)# interface vlan 1
- Use the **6EBUp** secret password. (config-if)# ip address
- Encrypt all clear text passwords. (config-if)# 128.107.20.10
- Configure an appropriate message-of-the-day (MOTD) banner. 255.255.255.0
- Configure addressing for all devices according to the Addressing Table. # copy running-config startup-config
- Save your configurations. > ping 128.107.20.10
- Verify connectivity between all devices.

Note: Click **Check Results** to see your progress. Click **Reset Activity** to generate a new set of requirements. If you click on this before you complete the activity, all configurations will be lost.
